The Company adopts Conflict procedures encompassing political contributions, personal trading, outside business activities and gifts and entertainment.

(a) Summary or Rationale

This Conflicts of Interest Policy requires Company Personnel to declare the nature and extent of potential Conflicts and for the Company to identify and manage Conflicts in accordance with an established framework. Even where no actual Conflict is present, the appearance of a Conflict may pose the risk of damage to the Company's relationships or reputation.

The identification and management of Conflicts, whether actual, potential or perceived, is critical. Some Conflicts may not be permissible as a matter of law, regulation, or Company policy. Other Conflicts may be permissible, and the Company has procedures and controls to mitigate actual, potential or perceived Conflicts that might arise from the Company's or the Company Personnel's own activities. The Company will disclose Conflicts to ASX and other third parties whenever required by law or regulation, or otherwise appropriate to enable those affected third parties to make an informed decision.

Where local or national law or regulatory expectations impose additional requirements to those imposed by this Policy, the Company and Company Personnel must follow those additional requirements.

(b) Framework

Conflicts arise in three conflict types and across five conflict categories:

- i. "Company vs. Shareholders".
- ii. "Company Personnel vs. Shareholders".
- iii. "Company Personnel".

Conflict Categories identify the general substantive issue which a particular Conflict raises:

- i. Material Non-Public Information – Conflict arising from the potential use of Material Non-Public Information (MNPI) by Company Personnel for the benefit of the Company (for example, through front running a Company trade) or the Company Personnel individually (for example, through trading for the benefit of their personal account).
- ii. Dealings with third parties / Suppliers that result in financial benefits to related parties and interests – Conflict in which the Company receives financial benefit, in the form of either direct or indirect compensation, from a third party and/or Supplier for an agreed arrangement (for example, obtaining services, outsourcing services, directing trading to exchanges) which could affect the Company's exercise of its best judgement.
- iii. Shareholders management – Conflict arising in the management of the Shareholder's account (including providing recommendations or advice).
- iv. Conduct – An individual action or decision by Company Personnel (for example, in managing gifts and entertainment, complaints, personal political activities, or their personal relationships or outside business activities).
- v. Trading & portfolio management – Conflict may arise in the management of the Company's trading activities, where the Company or Company Personnel may benefit from certain activities that are not in the best interest of Shareholders– including, but not limited to, potential fraud or market manipulation.

Please refer to the HGV Code of Conduct for further information.

(f) Information Barriers

The Company mitigates against existing and potential Conflicts and safeguards the integrity of investment processes and portfolio management decisions, including preventing front-running of trading decisions, and safeguarding proprietary due diligence.

(g) Compensation

The Company's governance and management structure delineates responsibility and accountability for incentive compensation arrangements so that such arrangements are

designed to appropriately consider Conflicts and incentivize Company Personnel to act in a manner that builds long-term, sustainable Shareholder value and does not incentivize behaviour that would create a Conflict between themselves and the Company or Shareholders.

(h) Board Function

The Board periodically reviews Conflicts policy and procedures and Company transactions/activities, including merger and acquisition and capital markets transactions, to avoid or manage any actual, potential or perceived Conflicts. It manages Conflicts by reviewing, clearing and, in appropriate cases, limiting business activities or securing any required permissions or releases. Reputation risk matters are reviewed and vetted by the Board.

(i) Personal Account Dealing and Outside Activities

Company Personnel are required to disclose their personal and beneficially owned investment transactions that may create Conflicts. In addition, Company Personnel are required to pre-clear transactions in HGV securities (refer Trading Policy) and certain outside activities and second jobs.

The primary purpose of the Board is to:

- (a) maintain a Board that has an appropriate mix of skills and experience to be an effective decision-making body; and

 - (iv) details of any other material Directorships currently held by the candidate;
 - (v) where standing as a Director for the first time, any material adverse information revealed by the checks, details of any interest, position, association or relationship that might materially influence their capacity to be independent and act in the best interests of the Company as a whole rather than in the interests of an individual security holder or other party, and a statement whether the Board considers the candidate is considered to be independent;

 - (ii) If a Director is not familiar with the legal framework that governs the Company, the Company's induction program should include training on their legal duties and responsibilities as a Director under the key legislation governing the Company and the listing rules (including ASX's continuous and periodic reporting requirements).

- (iv) The Board or the nomination committee of a listed Company should regularly assess whether the Directors as a group have the skills, knowledge and experience to deal with new and emerging business and governance issues. SCHEDULE 8 – TRADING POLICY

1. INTRODUCTION

These guidelines set out the policy on the sale and purchase of securities in the Company by its Key Management Personnel, the Company¹ and the external managers of its investments. Persons and entities covered by these guidelines are called “Restricted Persons”.

Key Management Personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly, including any Director (whether executive or otherwise) of that Company.

External managers (the “Managers”) are those entities or persons engaged by the Company to manage its investments. These guidelines apply to the directors and employees of the Manager (to the extent required by the Securities Trading Policy of the Manager).

The guidelines cover the situation where the Company is undertaking or proposes to under a on market share buyback.

The Company has determined that its Key Management Personnel are its Directors and those employees directly reporting to the Board.

Key Management Personnel are encouraged to be long-term holders of the Company’s securities. However, it is important that care is taken in the timing of any purchase or sale of such securities.

The purpose of these guidelines is to assist Restricted Persons to avoid conduct known as ‘insider trading’ in the countries in which the Company operates. In some respects, the Company’s policy extends beyond the strict requirements of the *Corporations Act 2001* (Cth).

2. WHAT TYPES OF TRANSACTIONS ARE COVERED BY THIS POLICY?

This policy applies to both the sale and purchase of any securities of the Company and its subsidiaries on issue from time to time.

3. WHAT IS INSIDER TRADING?

3.1 Prohibition

Insider trading is a criminal offence. It may also result in civil liability. In broad terms, a person will be guilty of insider trading if:

- (a) that person possesses information which is not generally available to the market and, if it were generally available to the market, would be likely to have a material effect on the price or value of the Company’s securities (i.e. information that is ‘price sensitive’); and
- (b) that person:
 - (i) buys or sells securities in the Company; or
 - (ii) procures someone else to buy or sell securities in the Company; or
 - (iii) passes on that information to a third party where that person knows, or ought reasonably to know, that the third party would be likely to buy or sell the securities or procure someone else to buy or sell the securities of the Company.

3.2 Examples

To illustrate the prohibition described above, the following are possible examples of price sensitive information which, if made available to the market, may be likely to materially affect the price of the Company’s securities:

- (a) the Company considering a major acquisition;

¹ The guidelines in Schedule Eight apply to the Company and its subsidiaries.

- (b) the threat of major litigation against the Company;
- (c) the Company's revenue and profit or loss results materially exceeding (or falling short of) the market's expectations;
- (d) a material change in debt, liquidity or cash flow;
- (e) a significant new development proposal (e.g. new product or technology);
- (f) the grant or loss or a major contract;
- (g) a management or business restructuring proposal; and
- (h) a share issue proposal.

3.3 Dealing through third parties

The insider trading prohibition extends to dealings by individuals through nominees, agents or other associates, such as family members, family trusts and family companies (referred to as "**Associates**" in these guidelines).

3.4 Information however obtained

It does not matter how or where the person obtains the information – it does not have to be obtained from the Company to constitute inside information.

3.5 Employee share schemes

The prohibition does not apply to acquisitions of shares or options by employees made under employee share or option schemes, nor does it apply to the acquisition of shares as a result of the exercise of options under an employee option scheme. However, the prohibition does apply to the sale of shares acquired under an employee share scheme and also to the sale of shares acquired following the exercise of an option granted under an employee option scheme.

4. GUIDELINES FOR TRADING IN THE COMPANY'S SECURITIES

4.1 General rule

Restricted Persons must not, except in exceptional circumstances deal in securities of the Company during the following periods:

- (a) two weeks prior to, and 48 hours after the release of the Company's Appendix 4E;

(together the **Closed Periods**).

The Company may at its discretion vary this rule in relation to a particular Closed Periods by general announcement to all Restricted Persons either before or during the Closed Periods. However, if a Restricted Person is in possession of price sensitive information which is not generally available to the market, then he or she must not deal in the Company's securities at **any** time.

4.2 No short-term trading in the Company's securities

Restricted Persons should never engage in short-term trading of the Company's securities except for the exercise of options where the shares will be sold shortly thereafter.

4.3 Securities in other companies

Buying and selling securities of other companies with which the Company may be dealing is prohibited where an individual possesses information which is not generally available to the market and is 'price sensitive'. For example, where an individual is aware that the Company is about to sign a major agreement with another company, they should not buy securities in either the Company or the other company.

4.4 Exceptions

 - (vi) acquire ordinary shares in the Company as a result of the exercise of options held under an employee option scheme;
 - (vii) transfer securities of the Company already held into a superannuation fund or other saving scheme in which the restricted person is a beneficiary;
 - (viii) make an investment in, or trade in units of, a fund or other scheme (other than a scheme only investing in the securities of the Company) where the assets of the fund or other scheme are invested at the discretion of a third party;
 - (ix) where a restricted person is a trustee, trade in the securities of the Company by that trust, provided the restricted person is not a beneficiary of the trust and any decision to trade during a prohibited period is taken by the other trustees or by the investment managers independently of the restricted person;
 - (x) undertake to accept, or accept, a takeover offer;
 - (xi) trade under an offer or invitation made to all or most of the security holders, such as a rights issue, a security purchase plan, a dividend or distribution reinvestment plan and an equal access buy-back, where the plan that determines the timing and structure of the offer has been approved by the Board. This includes decisions relating to whether or not to take up the entitlements and the sale of entitlements required to provide for the take up of the balance of entitlements under a renounceable pro rata issue;
 - (xii) dispose of securities of the Company resulting from a secured lender exercising their rights, for example, under a margin lending arrangement;
 - (xiii) exercise (but not sell securities following exercise) an option or a right under an employee incentive scheme, or convert a convertible security, where the final date for the exercise of the option or right, or the conversion of the security, falls during a prohibited period or the Company has had a number of consecutive prohibited periods and the restricted person could not reasonably have been expected to exercise it at a time when free to do so; or
 - (xiv) trade under a non-discretionary trading plan for which prior written clearance has been provided in accordance with procedures set out in this Policy.
- (b) In respect of any share or option plans adopted by the Company, it should be noted that it is not permissible to provide the exercise price of options by selling the shares acquired on the exercise of these options unless the sale of those shares occurs outside the periods specified in paragraph 4.1.

Were this is to occur at a time when the person possessed inside information, then the sale of Company securities would be a breach of insider trading laws, even though the person's decision to sell was not influenced by the inside information that the person possessed and

the person may not have made a profit on the sale. Where Company securities are provided to a lender as security by way of mortgage or charge, a sale that occurs under that mortgage or charge as a consequence of default would not breach insider trading laws.

4.5 Notification of periods when Restricted Persons are not permitted to trade

The Company Secretary will endeavour to notify all Restricted Persons of the times when they are not permitted to buy or sell the Company's securities as set out in paragraph 4.1.

5. APPROVAL AND NOTIFICATION REQUIREMENTS

5.1 Approval requirements

- (a) Any Restricted Persons (other than the Chairman) wishing to buy, sell or exercise rights in relation to the Company's securities must obtain the prior written approval of the Chairman or his delegate or the Board before doing so.
- (b) If the Chairman wishes to buy, sell or exercise rights in relation to the Company's securities, the Chairman must obtain the prior approval of the Board before doing so.

5.2 Approvals to buy or sell securities

- (a) All requests to buy or sell securities as referred to in paragraph 5.1 must include the intended volume of securities to be purchased or sold, an estimated time frame for the sale or purchase and confirmation that the Restricted Person is not in possession of price sensitive information which is not generally available to the market material information.
- (b) Copies of written approvals must be forwarded to the Company Secretary prior to the approved purchase or sale transaction.
- (c) Written approvals will be valid for ten business days, however the approvals will be considered to be automatically withdrawn if the Restricted Person in question becomes in possession of price sensitive information which is not generally available to the market prior to trading.

5.3 Notification

Subsequent to approval obtained in accordance with paragraphs 5.1 and 5.2, any Restricted Persons who (or through his or her Associates) buys, sells, or exercises rights in relation to Company securities **must** notify the Company Secretary in writing of the details of the transaction within two (2) business days of the transaction occurring. This notification obligation **operates at all times** and includes applications for acquisitions of shares or options by employees made under employee share or option schemes and also applies to the acquisition of shares as a result of the exercise of options under an employee option scheme.

5.4 Exemption from Closed Periods restrictions due to exceptional circumstance

Restricted Persons who are not in possession of inside information in relation to the Company, may be given prior written clearance by the Company Secretary (or in the case of the Company Secretary by all other members of the Board) to sell or otherwise dispose of Company securities in a Closed Period where the person is in severe financial hardship or where there are exceptional circumstances as set out in this policy.

5.5 Severe financial hardship or exceptional circumstances

The determination of whether a Restricted Person is in severe financial hardship will be made by the Company Secretary (or in the case of the Company Secretary by all other members of the Board).

A financial hardship or exceptional circumstances determination can only be made by examining all of the facts and, if necessary obtaining independent verification of the facts from banks, accountants or other like institutions.

5.6 Financial hardship

Restricted Persons may be in severe financial hardship if they have a pressing financial commitment that cannot be satisfied other than by selling the securities of the Company.

In the interests of an expedient and informed determination by the Company Secretary (or all other members of the Board as the context requires), any application for an exemption allowing the sale of Company securities in a Closed Period based on financial hardship must be made in writing stating all of the facts and be accompanied by copies of relevant supporting documentation, including contact details of the person's accountant, bank and other such independent institutions (where applicable).

Any exemption, if issued, will be in writing and shall contain a specified time period during which the sale of securities can be made.

5.7 Exceptional circumstances

Exceptional circumstances may apply to the disposal of Company securities by a Restricted Person if the person is required by a court order, a court enforceable undertaking for example in a bona fide family settlement, to transfer or sell securities of the Company, or there is some other overriding legal or regulatory requirement to do so.

Any application for an exemption allowing the sale of Company securities in a Closed Period based on exceptional circumstances must be made in writing and be accompanied by relevant court and/or supporting legal documentation (where applicable).

Any exemption, if issued, will be in writing and shall contain a specified time period during which the sale of securities can be made.

6. ASX NOTIFICATION FOR DIRECTORS

The ASX Listing Rules require the Company to notify the ASX within 5 business days after any dealing in securities of the Company (either personally or through an Associate) which results in a change in the relevant interests of a Director in the securities of the Company. The Company has made arrangements with each Director to ensure that the Director promptly discloses to the Company Secretary all the information required by the ASX.

7. EFFECT OF COMPLIANCE WITH THIS POLICY

Compliance with these guidelines for trading in the Company's securities does not absolve that individual from complying with the law, which must be the overriding consideration when trading in the Company's securities.

8. REVIEW OF DOCUMENT

The Board will conduct an annual review of the policy to ensure it remains effective and relevant to the operations of the Company and will update the policy as required or as a result of new laws or regulations.

SCHEDULE 9 – DIVERSITY POLICY

1. INTRODUCTION

The Company and all its related bodies corporate are committed to workplace diversity.

The Company recognises the benefits arising from employee and Board diversity, including a broader pool of high quality employees, improving employee retention, accessing different perspectives and ideas and benefiting from all available talent.

Diversity includes, but is not limited to, gender, age, ethnicity and cultural background.

The Company's policy on diversity stipulates that there is to be no discrimination in respect of race, creed or gender when seeking potential candidates for Board positions. This policy also applies to employees. The size of the Company's operations does not provide widespread opportunities to have a workforce covering all sections of the community.

Express the organisation's commitment to inclusion at all levels of the organisation, regardless of gender, marital or family status, sexual orientation, gender, age, disabilities, ethnicity, religious beliefs, cultural background, socio-economic background, perspective and experience.

The Board also acknowledges the benefits of the recommendations and guidance provided in the *ASX Corporate Governance Council's Corporate Governance Principles and Recommendations* that relate to diversity, however, it is also cognisant of the fact that the Company is in its development phase and its workforce is not of a size where the benefits of such initiatives are proportionate to the costs involved in the implementation of such strategies.

To this end, the Board has adopted a tiered approach to the implementation of its Diversity Policy which is relative to the size of the Company and its workforce.

Where the Company employs 100 or more employees, the Board undertakes to adopt practices in line with the recommendations and guidance provided in the *ASX Corporate Governance Council's Corporate Governance Principles and Recommendations*.

Whilst the Company's workforce remains below this threshold, the Board will continue to drive the Company's diversity strategies on an informal basis and will apply the initiatives contained in this Diversity Policy to the extent that the Board considers relevant and necessary.

The Diversity Policy does not form part of an employee's contract of employment with the Company, nor gives rise to contractual obligations. However, to the extent that the Diversity Policy requires an employee to do or refrain from doing something and at all times subject to legal obligations, the Diversity Policy forms a direction of the Company with which an employee is expected to comply.

2. OBJECTIVES

The Diversity Policy provides a framework for the Company to achieve:

- (a) a diverse and skilled workforce, leading to continuous improvement in service delivery and achievement of corporate goals;
- (b) a workplace culture characterised by inclusive practices and behaviours for the benefit of all staff;
- (c) improved employment and career development opportunities for women;
- (d) a work environment that values and utilises the contributions of employees with diverse backgrounds, experiences and perspectives through improved awareness of the benefits of workforce diversity and successful management of diversity; and
- (e) awareness in all staff of their rights and responsibilities with regards to fairness, equity and respect for all aspects of diversity,

(collectively, the **Objectives**).

The Diversity Policy does not impose on the Company, its Directors, officers, agents or employee any obligation to engage in, or justification for engaging in, any conduct which is

illegal or contrary to any anti-discrimination or equal employment opportunity legislation or laws in any State or Territory of Australia or of any foreign jurisdiction.

3. RESPONSIBILITIES

3.1 The Board's commitment

The Board of the Company is responsible for monitoring the scope and currency of this policy.

At a time when the Company's workforce grows to a size of 100 or more employees, the Company will undertake a review of the annual key performance indicators for the Chief Executive Officer/Managing Director and senior executives of the Company and will determine the extent to which the Measurable Objectives shall be linked to performance-based incentives offered to those executives.

Where appropriate, the Board will review progress against the Measurable Objectives (if any) as a key performance indicator in its annual performance assessment.

SCHEDULE 12 – ANTI-BRIBERY AND CORRUPTION POLICY

1. PURPOSE

The purpose of this policy is to establish controls to ensure compliance with all applicable anti-bribery and corruption regulations, and to ensure that the Company's business is conducted in a socially responsible manner.

2. POLICY STATEMENT

Bribery is the offering, promising, giving, accepting or soliciting of an advantage as an inducement for action which is illegal or a breach of trust. A bribe is an inducement or reward offered, promised or provided in order to gain any commercial, contractual, regulatory or personal advantage.

It is our policy to conduct all of our business in an honest and ethical manner. We take a zero- tolerance approach to bribery and corruption. We are committed to acting professionally, fairly and with integrity in all our business dealings and relationships wherever we operate and implementing and enforcing effective systems to counter bribery.

We will uphold all laws relevant to countering bribery and corruption in all the jurisdictions in which we operate. However, we remain bound by the laws in Australia in respect of our conduct both at home and abroad.

3. SCOPE

(a) Who is covered by the policy?

In this policy, **third party** means any individual or organisation you come into contact with during the course of your work for us, and includes actual and potential clients, customers, suppliers, distributors, business contacts, agents, advisers, and government and public bodies, including their advisors, representatives and officials, politicians and political parties.

This policy applies to all directors, employees (whether permanent, fixed-term or temporary), consultants and contractors engaged by the Company and its subsidiaries (collectively referred to as **employees** in this policy).

This policy covers:

- i. Bribes.
- ii. Gifts and hospitality.
- iii. Facilitation payments.
- iv. Political contributions.
- v. Charitable contributions.

(b) Bribes

Employees must not engage in any form of bribery, either directly or through any third party (such as an agent or distributor). Specifically, employees must not bribe a foreign public official anywhere in the world.

(c) Gifts and hospitality

Employees must not offer or give any gift or hospitality:

- i. which could be regarded as illegal or improper, or which violates the recipient's policies; or

- ii. to any public employee or government officials or representatives, or politicians or political parties; or
- iii. which exceeds \$100 in value for each individual gift or \$500 in value for each hospitality event, unless approved in writing by the employee's manager.

Employees may not accept any gift or hospitality from our business partners if:

- i. it exceeds \$100 in value for each individual gift or \$500 in value for each hospitality event, unless approved in writing by the employee's manager; or
- ii. it is in cash; or
- iii. there is any suggestion that a return favour will be expected or implied.

Where a manager's approval is required above, if the manager is below Director level then approval must be sought from an appropriate Director.

If it is not appropriate to decline the offer of a gift, the gift may be accepted, provided it is then declared to the employee's manager and donated to charity.

(d) Facilitation payments and kickbacks

Facilitation payments are a form of bribery made for the purpose of expediting or facilitating the performance of a public official for a routine governmental action, and not to obtain or retain business or any improper business advantage. Our strict policy is that facilitation payments must not be paid.

(e) Political Contributions

We do not make donations, whether in cash or kind, in support of any political parties or candidates, as this can be perceived as an attempt to gain an improper business advantage.

(f) Charitable contributions

Charitable support and donations are acceptable. However, employees must be careful to ensure that charitable contributions are not used as a scheme to conceal bribery. We only make charitable donations that are legal and ethical under local laws and practices. No donation must be offered or made without the prior approval of the Company Secretary.

4. EMPLOYEE'S RESPONSIBILITIES

All Employees must ensure that they read, understand and comply with this policy.

The prevention, detection and reporting of bribery and other forms of corruption are the responsibility of all those working for us or under our control. All employees are required to avoid any activity that might lead to, or suggest, a breach of this policy.

Please follow the Company's Whistle-blower Policy if you believe or suspect that a conflict with or breach of this policy has occurred or may occur in the future.

Any employee who breaches this policy will face disciplinary action, which could result in dismissal for gross misconduct. We reserve our right to terminate our contractual relationship with other workers if they breach this policy.

5. RECORD-KEEPING

We must keep financial records and have appropriate internal controls in place which will evidence the business reason for making payments to third parties.

You must ensure all expenses claims relating to hospitality, gifts or expenses incurred to third parties are submitted in accordance with our expenses policy and specifically record the reason for the expenditure.

All accounts, invoices, memoranda and other documents and records relating to dealings with third parties, such as clients, suppliers and business contacts, should be prepared and maintained with strict accuracy and completeness. No accounts must be kept "off-book" to facilitate or conceal improper payments.

6. PROTECTION

Employees who refuse to accept or offer a bribe, or those who raise concerns or report another's wrongdoing, are sometimes worried about possible repercussions. We aim to encourage openness and will support anyone who raises genuine concerns in good faith under this policy, even if they turn out to be mistaken.

We are committed to ensuring no one suffers any detrimental treatment as a result of refusing to take part in bribery or corruption, or because of reporting in good faith their suspicion that an actual or potential bribery or other corruption offence has taken place, or may take place in the future.

Detrimental treatment includes dismissal, disciplinary action, threats or other unfavourable treatment connected with raising a concern. If you believe that you have suffered any such treatment, you should inform Colm Shevlin immediately. If the matter is not remedied, and you are an employee, you should raise it formally using the company's Grievance Procedure.

7. TRAINING AND COMMUNICATION

Training on this policy forms part of the induction process for all new employees. All existing employees will receive regular, relevant training on how to implement and adhere to this policy. In addition, all employees will be asked to formally accept conformance to this policy on an annual basis.

8. WHO IS RESPONSIBLE FOR THE POLICY?

The board of directors has overall responsibility for ensuring this policy complies with our legal and ethical obligations, and that all those under our control comply with it.

The Company Secretary has primary and day-to-day responsibility for implementing this policy, and for monitoring its use and effectiveness and dealing with any queries on its interpretation. Management at all levels are responsible for ensuring those reporting to them are made aware of and understand this policy and are given adequate and regular training on it.

9. MONITORING AND REVIEW

The Company Secretary will monitor the effectiveness and review the implementation of this policy, regularly considering its suitability, adequacy and effectiveness. Any improvements identified will be made as soon as possible. Internal control systems and procedures will be subject to regular audits to provide assurance that they are effective in countering bribery and corruption.

10. REVIEW OF DOCUMENT

The Board will conduct an annual review of the policy to ensure it remains effective and relevant to the operations of the Company and will update the policy as required or as a result of new laws or regulations.

ANNEXURE A – DEFINITION OF INDEPENDENCE

An independent Director is a non-executive Director that is free of any interest, position, association or relationship that might influence, or reasonably be perceived to influence, in a material respect their capacity to bring an independent judgment to bear on issues before the Board and to act in the best interests of the Company as a whole rather than in the interests of an individual security holder or other party.

Examples of interests, positions and relationships that might raise issues about the independence of a Director are set out in Box 2.3 of the ASX Corporate Governance Principles and Recommendations 4th Edition. Where a Director falls within one or more of these examples, the Board should rule the Director not to be independent unless it is clear that the interest, position or relationship in question is not material and will not interfere with the Director's capacity to bring an independent judgement to bear on issues before the Board and to act in the best interests of the Company as a whole rather than in the interests of an individual security holder or other party. The examples in Box 2.3 of interests, positions, associations and relationships that might raise issues about the independence of a Director of a Company include if the Director:

- (a) is, or has been, employed in an executive capacity by the Company or any of its child entities and there has not been a period of at least three years between ceasing such employment and serving on the board;
- (b) receives performance-based remuneration (including options or performance rights) from, or participates in an employee incentive scheme of, the entity;
- (c) is, or has been within the last three years, in a material business relationship (eg as a supplier professional adviser, consultant or customer) with the Company or any of its child entities, or an officer of, or otherwise associated with, someone with such a relationship;
- (d) is, represents, or is or has been within the last three years an officer or employee of, or professional adviser to, a substantial holder;
- (e) has close personal ties with any person who falls within any of the categories described above; or
- (f) has been a director of the Company for such a period that their independence from management and substantial holders may have been compromised.

Performance based remuneration

The Board of HGV have determined, and its security holders have approved, that it is in the best interests of the Company and security holders to include Performance based remuneration in the remuneration structure for non-executive directors and that this does not impact the independence of Directors. Each of the independent directors hold performance based securities.

Inclusion of performance-based remuneration is considered highly appropriate and consistent with alignment of Directors' interests with those of its shareholders. The Company also endorses those recipients and Company Personnel (and their nominees) holding ordinary shares in the Company.

The Conflict of Interest Policy contains adequate restrictions (such as Trading Policy that contains trading and portfolio management restrictions) to ensure that neither the awarding, disposal nor ongoing value of any equity interest are of sufficient magnitude to jeopardise or influence their exercise of independent thought, nor impair their business judgment. The Board employs a materiality threshold in judging whether customer, supplier, consultant or professional adviser relationships affect the independence of HGV directors. The threshold for the purpose of assessing the materiality of relationships between a non-executive director and HGV (other than as a director) is set according to the significance of that relationship to the director in the context of their activities as a whole.

Materiality Threshold

The Board employs a materiality threshold in judging whether customer, supplier, consultant or professional adviser relationships affect the independence of HGV directors. The threshold for the purpose of assessing the materiality of relationships between a non-executive director and HGV (other

than as a director) is set according to the significance of that relationship to the director in the context of their activities as a whole.

A “substantial shareholder” is as defined in section 9 of the Corporations Act 2001 (Cth) being a holding of 5% or more of the voting shares in the Company;

Directors’ Interests

At each meeting of the Board, directors table their current outside interests. Where it is considered that a director has a material potential conflict, it is noted and where appropriate the relevant director absents him or herself for that specific item of business. That decision is minuted.

In each case, the materiality of the interest, position, association or relationship needs to be assessed to determine whether it might interfere, or might reasonably be seen to interfere, with the director’s capacity to bring an independent judgement to bear on issues before the Board and to act in the best interests of the Company and its security holders generally.

ANNEXURE B – SKILLS MATRIX

The Board of the Company is comprised of Directors with a broad range of technical, commercial, financial and other skills, experience and knowledge relevant to overseeing the business of the Company.

The composition of the Board and senior management team is reviewed on a regular basis with reference to the Company's Skills Matrix which is used as a tool to assess the appropriate balance of skills and experience necessary for the Board to discharge its duties and responsibilities effectively.

A summary of the collective skills, experience and independence of the Board is set out below.

The Company seeks to achieve a collectively "high" level of skill, professional experience or expertise across all categories. Where there are gaps in the skills of the Board, these are filled through the employment of suitably experienced executives and/or the engagement of professional experts and consultants.
